Customs tariff number:	85076000	Gross weight:	1.40 kg

DATASHEET

ACTSAFE BATTERY ICX

Powerful Husqvarna BLi200 battery to extend the ICX POWER ASCENDER kit (POA-030) when more batteries are required for one device. The quick-charging battery has an electronic management system with an LED display that provides information on its charge status at all times. With a user load of 100 kilogrames, one battery charge is sufficient for ascending up to 230 metres of rope. At higher loads, the battery performance is correspondingly somewhat lower.

FEATURES

Application areas:	Various
Energy source:	230 V AC mains supply
Colour:	Grey
Underwater operations:	No
Min. ascent rate:	1 m/min
Emergency descent function:	No
Emergency stop function:	No

DIMENSIONS

Working load limit:	185.00 kg
